

E^oNG
ENGINEERING FOR NEXT GENERATION

A woman with short dark hair, wearing a dark blazer over a white collared shirt and dark jeans, is sitting on a rocky, uneven ground. She is smiling and looking towards the camera. To her left, there is a white hard hat with the 'E-NG' logo, a black folder, and some papers. She is holding a smartphone in her hands. The background consists of dry, rocky terrain with some sparse green bushes and trees. A yellow text box is overlaid on the right side of the image.

*YOU HAVE TO TAKE DECISIONS IN ORDER
TO MAKE PROGRESS.*

BUNDLE OF ENERGY

„The passion for construction was given to me in the cradle.“

Since our start-up in 2014 we bring a fresh breeze, and we can look back to many satisfied customers and successfully concluded projects.

The company E-NG GmbH is a sound, growing company, with a performance spectre focusing on the construction of foundations for wind power plants.

We deliver the manufacturer-independent basis for wind power plants on national and international markets.

Flat corporate structures as well as qualified and highly motivated personnel make us a powerful partner for the competitive and cost-optimised implementation of your project.

Taking into account our responsibility for ourselves and for coming generations, a careful handling of natural resources is an essential guiding principle of our sustainable approach.

SERVICES

No matter which wind energy plant you choose
– we build your foundation.

TEAMPLAYERS

A team benefits from the capacities of each individual team member.
With our technical know-how, our power and our dynamics, we are optimally equipped for every challenge.

THE MORALE IN THE COMPANY IS MORE IMPORTANT
THAN CAPITAL AND KNOWLEDGE. *HELMUT WEYH*

SPECIALISTS

Our teams build the foundations for the most different plant types in a very professional way.
A long-standing experience as well as continuous further development make us specialists in this sector.

WHEN THE RIGHT PEOPLE MEET, BARRIERS BECOME PROGRESS.

ORGANISATIONAL TALENTS

The knowledge and the experience gathered in many years make us experts.

We keep up the dialogue with you on the shortest paths, and we fulfil your requirements with our high degree of quality. Flexibility, personal commitment and on-schedule handling: This is our "All-Round Carefree Package" for every wind speed.

As a team we want to go to the top and to become the best in our branch.

MMITEERS

EVERY DAY YOU CAN TAKE ONE STEP MORE
THAN YOU HAVE THOUGHT YOU COULD.

PARTNERS

Fair and long-term business relationships are important to us.

This is our “Foundation” for the global project implementation.

Our business partners appreciate the reliable and competent cooperation with us.

Your positive feedback strengthens the trust in our work and confirms our successful corporate philosophy.

„Steel – the backbone of concrete“

For our construction projects we use certified concrete steel, predominantly from our own steelworks in Kraasa.

THE SECRET OF SUCCESS IS TO BE READY
FOR THE OPPORTUNITY WHEN IT COMES. *BENJAMIN DISRAELI*
